

# ARISTI

PROJECTS & ENGINEERING PVT LTD

## ABOUT US

A prominent player in Multi-Disciplinary Engineering Services, offering multi-core Engineering and Project Management services, catering to a variety of business sectors, including Power, Oil & Gas, Process Industry, Civil & Infrastructure, Mining, and Metallurgy.

Certified: ISO 9001:2015

# BUSINESS SEGMENTS

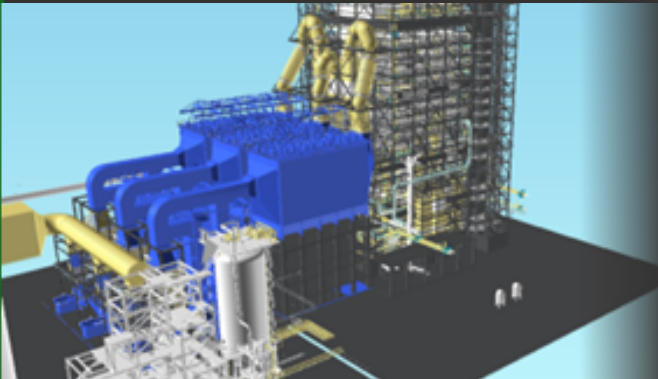

## Oil & Gas

We serve the Oil and Gas sector, delivering a wide array of services covering midstream and downstream operations. Our specialization lies in offering comprehensive design and detailed engineering solutions across multiple disciplines, including Process, Mechanical, Piping, Electrical, Instrumentation, Civil, and Structural

## Power

We provide an extensive array of services catering to conventional Thermal Power plants, Engine Plants, Biomass Power Plants, Waste to energy Plants, and Renewable Energies.

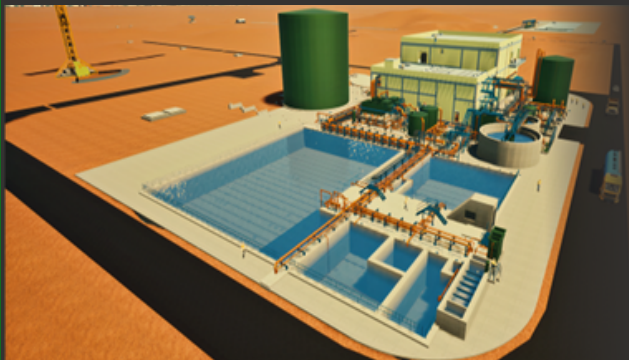

## Process Industry

We Provide a diverse range of engineering support services for hydrocarbon plants, petrochemical complexes, fertilizer plants, paper and pulp plants. With a dedicated team of expertise we provide comprehensive solutions that cater to the unique needs of each industry, ensuring efficient and reliable operations. From design and construction to ongoing maintenance and optimization, we are committed to delivering excellence in every aspect of our services.

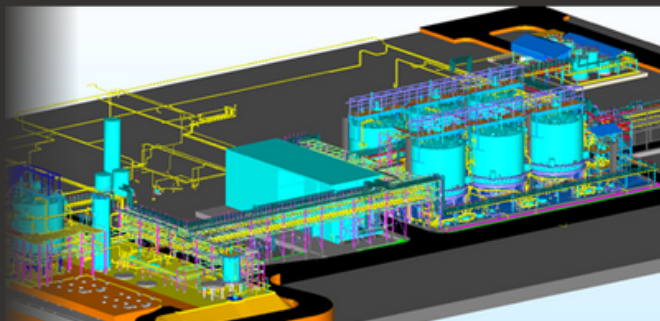

## CIVIL & INFRASTRUCTURE

We Provide a broad range of engineering services encompassing manufacturing facilities, water treatment, wastewater treatment, desalination, buildings, and sewage systems. With our expertise and commitment to quality, we ensure optimal solutions for each of these sectors, providing efficient and sustainable engineering support from inception to completion

## MINING & METALLURGY

We offer a comprehensive array of engineering services tailored to meet the unique demands of the mining and metallurgy industry. With our team of experienced professionals and cutting-edge technology, we cater to a wide range of projects, ensuring optimal solutions for our clients.

# SERVICES

## WE PROVIDE PLANT ENGINEERING SOLUTIONS AND PROJECT MANAGEMENT SERVICES GLOBALLY

### Prebid Engineering

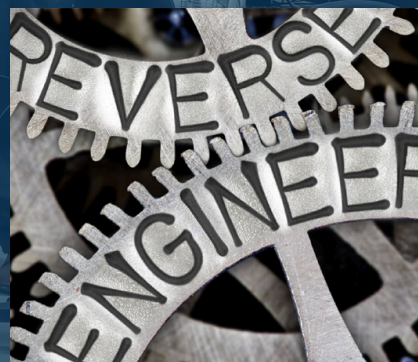

Your Pre Bid-Partner, backed by a proficient team of domain experts. Our expertise with unwavering commitment helps in achieving project objectives with effectiveness and efficiency. We provide indispensable support throughout the bid preparation process, offering highly valuable assistance.

### PMC

ARISTI adheres to a world-class project management system that spans the entire project life cycle. Consistently, focusing on cost control, time management, risk mitigation, and maintaining high-quality standards throughout the project's lifespan, and ensuring the successful achievement of project goals.

### Reverse Engineering

We specialize in Reverse Engineering, transforming laser-scanned point cloud data into intelligent 3D models, and developing Smart P&IDs to enhance revamping projects. We seamlessly integrate 3D modeling processes into a unified workflow.
